Date of Construction: 1912

Engineer: Fourteenth Naval District, Navy Yard, Pearl Harbor

Present Owner: Naval Submarine Base (SUBASE), Pearl Harbor

Present Use: Wharf K-1 was constructed in 1912 to berth service crafts such as oil-doughnuts, paint floats, camels, barges SWOBSSs, yard oil barges, tugs, and pilot boats. Wharf K-1 is currently condemned due to extensive structural deterioration.

Significance: Wharf K-1 is a 367 feet long by 42 feet wide structure consisting of concrete deck on concrete piles. Plans for repair work to Wharf K-1 are included in Special Project R2-88, which proposes to demolish 200 linear feet of the existing concrete wharf and construct a new sheet pile quaywall with tiebacks, fender system, and asphaltic concrete paving. As a Category 3 structure, it has been determined that Wharf K-1 functioned as part of the Pearl Harbor Naval Base, but is only of minor importance to the historic character of the National Historic Landmark.
